Clinical DTT Visual Stimulus Starter Pack (160 Target Array)

Preparation Tips & Practical Clinical Setup

Welcome to the SnapStim DTT Starter Pack!

This starter pack provides 160 AI-generated visual targets across 20 distinct program categories, featuring 4 visual exemplar styles (Realistic Photography, Natural Environment, 3D Renders, and Flat Vector Clip Art). Designed for quick physical preparation and maximum session flexibility for BCBAs, RBTs, and clinical teams.

Preparation Tips & Flexible Session Setup

1. Print & Cut Card Outer Borders

Print pages 2–21 on standard 8.5" x 11" heavy cardstock for long-lasting durability. Cut along the solid outer gray lines to yield 8 large visual target cards per page.

2. Fold Underneath or Snip Title Labels

Each card features a light dashed line (- - - - -) above the title. You can fold the label underneath the card or snip it off during Receptive Identification (Listener Responding) trials so text is hidden, then fold it back up or leave it visible for Expressive Tacting and Labeling programs.

3. Laminate for Heavy Clinical Session Use

Laminate cards after folding or snipping so they withstand daily therapy sessions, sanitizing wipes, and dry-erase marker prompts.

4. Flexible Array Presentation (Clean or Messy Layouts)

Present cards in whatever field size, array density, or spatial arrangement fits your session goals—whether structured 2-card / 4-card grids or rotated messy arrays for naturalistic generalization.

5. Create & View Digital DTT Sessions at SnapStim.com

To view existing programs, generate unlimited custom AI target arrays, or run digital tablet sessions with single-tap shuffling and automated data tracking, visit www.snapstim.com.

PROGRAM 1: FARM ANIMALS (Realistic Studio Photography)

SD Prompt: "Touch the animal"

Cow

Pig

Horse

Sheep

Rooster

Duck

Goat

Donkey

PROGRAM 2: WILD SAFARI ANIMALS (Natural Environment Photography)

SD Prompt: "Point to the wild animal"

Elephant

Giraffe

Lion

Monkey

Zebra

Hippo

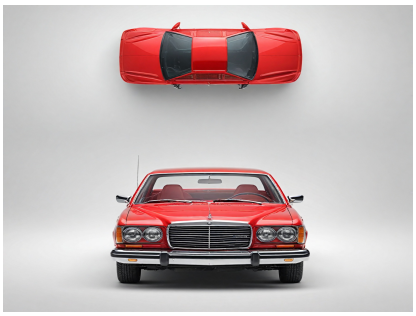

Tiger

Kangaroo

PROGRAM 3: VEHICLES & TRANSIT (Clean Flat Vector Clip Art Style)

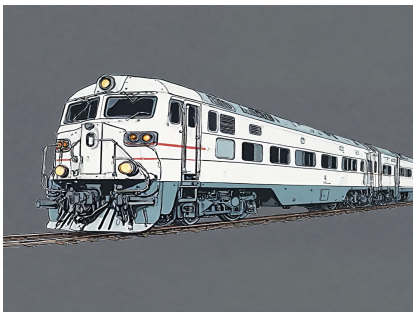

SD Prompt: "Point to the vehicle"

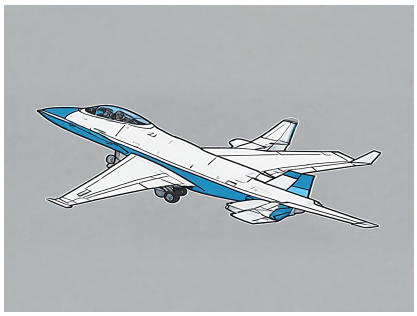

Red Car

Yellow Bus

Blue Train

Airplane

Sailboat

Bicycle

Motorcycle

Helicopter

PROGRAM 4: EMERGENCY & WORK VEHICLES (Vibrant 3D Rendered Object Style)

Instruction/Prompt: "Find the work vehicle"

Fire Truck

Police Car

Ambulance

Garbage Truck

Bulldozer

Excavator

Tractor

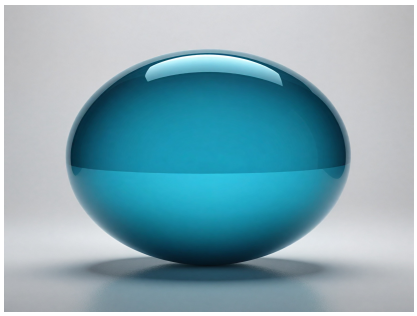

Dump Truck

PROGRAM 5: PRIMARY COLORS & TINTS (Realistic 3D Spheres)

SD Prompt: "Touch the color"

Red Ball

Blue Ball

Green Ball

Yellow Ball

Orange Ball

Purple Ball

Pink Ball

Black Ball

PROGRAM 6: SCHOOL SUPPLIES (Clean Studio Object Photography)

SD Prompt: "Touch the school item"

Yellow Pencil

Scissors

Notebook

Ruler

Calculator

Stapler

Backpack

Glue Stick

PROGRAM 7: CLASSROOM ART SUPPLIES (Cute Colorful Cartoon Illustration Style)

Instruction Prompt: "Find the art item"

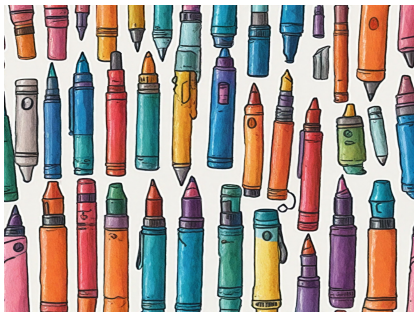

Crayon Box

Paint Brush

Paint Palette

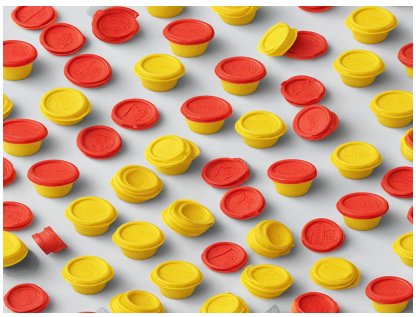

Marker

Colored Pencils

Eraser

Clay Playdough

Paper Clips

PROGRAM 8: FRUITS & BERRIES (Fresh Realistic Photography)

SD Prompt: "Touch the fruit"

Red Apple

Yellow Banana

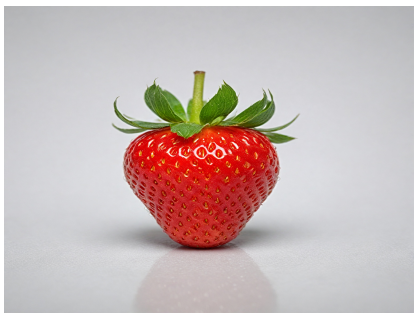

Cherries

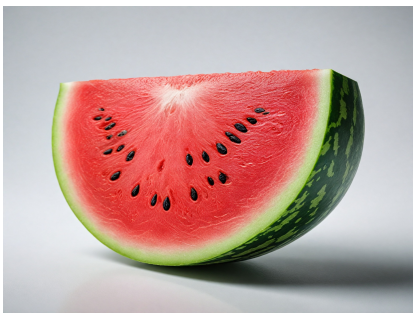

Purple Grapes

Fresh Orange

Strawberry

Watermelon

Pineapple

PROGRAM 9: VEGETABLES & PRODUCE (Clean Flat Vector Clip Art Style)

SD Prompt: "Point to the vegetable"

Carrot

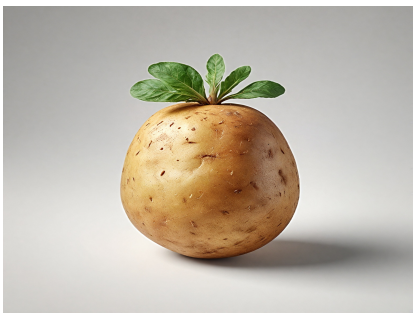

Broccoli

Tomato

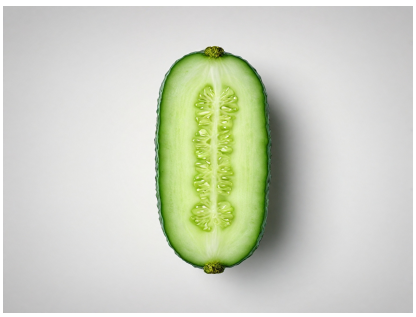

Corn

Potato

Onion

Cucumber

Pumpkin

PROGRAM 10: ACTION & MOVEMENT VERBS (Natural Environment Photography)

Teacher prompt: "Show me who is action"

Running

Jumping

Sleeping

Eating

Drinking

Reading

Swimming

Clapping

PROGRAM 11: EVERYDAY HOUSEHOLD OBJECTS (Clean Studio Object Photography)

Instruction: "Touch the household item"

Chair

Table

Bed

Drinking Cup

Eating Spoon

Wall Clock

Table Lamp

Telephone

PROGRAM 12: KITCHENWARE & UTENSILS (Clean Flat Vector Clip Art Style)

SD Prompt: "Find the kitchen item"

Fork

Plate

Bowl

Cooking Pot

Frying Pan

Water Jug

Mug

Toaster

PROGRAM 13: COMMUNITY HELPERS (Vibrant 3D Cartoon Character Style)

SD Prompt: "Point to the helper"

Firefighter

Police Officer

Doctor

Teacher

Mail Carrier

Nurse

Chef

Pilot

PROGRAM 14: CLOTHING & WARDROBE (Clean Studio Product Photography)

SD Prompt: "Touch the clothing item"

Shirt

Pants

Shoes

Socks

Baseball Cap

Jacket

Winter Gloves

Eyeglasses

PROGRAM 15: NATURE & PLANTS (Realistic Outdoor Natural Photography) *SD Prompt: "Point to the nature item"*

Red Rose

Sunflower

Oak Tree

Autumn Leaf

Pinecone

Green Bush

Wild Daisy

River Rock

PROGRAM 16: WEATHER & SKY ELEMENTS (Cute Cartoon Illustration Style)

SD Prompt: "Touch the weather"

Sun

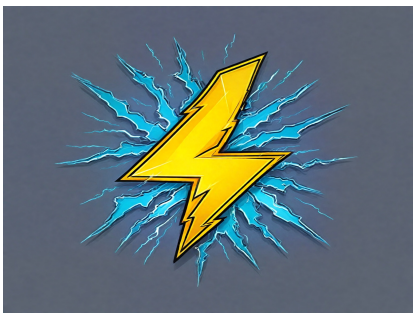

Rain Cloud

Rainbow

Snowflake

Lightning Flash

Windy Cloud

Crescent Moon

Night Stars

PROGRAM 17: BODY PARTS & ANATOMY (Clean Educational Illustration Style)

Prompt: "Touch the body part"

Eye

Ear

Nose

Mouth & Smile

Open Hand

Foot

Head Hair

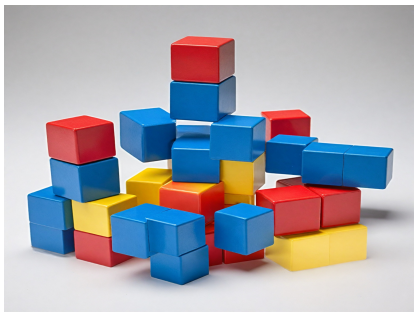

White Tooth

PROGRAM 18: TOYS & PLAY ITEMS (Vibrant 3D Rendered Toy Style)

SD Prompt: "Find the toy"

Teddy Bear

Building Blocks

Play Doll

Race Toy Car

Puzzle Piece

Playground Ball

Spinning Yo-Yo

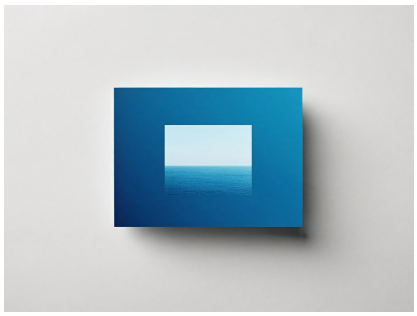

Toy Train Engine

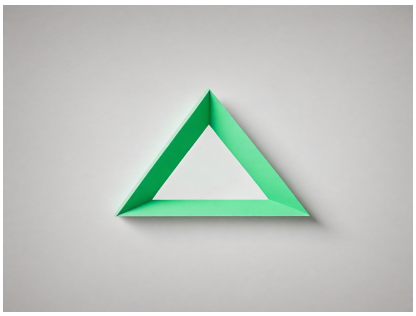

PROGRAM 19: SHAPES & GEOMETRY (High-Contrast Graphic Design Style) *SD Prompt: "Touch the shape"*

Red Circle

Blue Square

Green Triangle

Yellow Star

Pink Heart

Purple Diamond

Orange Oval

Black Rectangle

PROGRAM 20: MUSICAL INSTRUMENTS (Realistic Studio Product Photography)

Prompt: "Touch the instrument"

Acoustic Guitar

Grand Piano

Drum Set

Trumpet

Violin

Xylophone

Tambourine

Flute

Elevate Your ABA Practice with SnapStim Digital DTT

The All-in-One Generative AI Stimulus Engine & Automated Session Platform

www.snapstim.com

WHY BCBAs & CLINIC DIRECTORS CHOOSE SNAPSTIM DIGITAL

CLINICAL EFFICIENCY

Instant AI Target Array Generation

Instantly generate high-contrast visual target arrays tailored to any clinical protocol, client interest, or specialized skill acquisition program in under 30 seconds.

BIAS CONTROL

Single-Tap Spatial Shuffling & Anti-Bias Mode

Randomize spatial card positions and distractor placement with a single tap, eliminating positional bias, side preference, and rote spatial memory.

DATA ACCURACY

Real-Time RBT Prompt Hierarchy Tracking

Capture Independent, Verbal, Model, and Physical prompt levels directly on iPad or tablet with zero session downtime, manual paper logs, or data entry lag.

EHR INTEGRATION

Automated EHR & Practice Management Sync

Export trial accuracy percentages, prompt counts, and session summaries directly into CentralReach, Rethink, Catalyst, or WebABA.

GENERALIZATION

Structured Grids vs. Naturalistic Messy Arrays

Toggle seamlessly between structured clinical grids for initial teaching and rotated messy arrays to assess naturalistic generalization.

Start Your 14-Day Free Clinic Trial

Scan the QR code or visit snapstim.com to experience instant AI stimulus generation, automated tablet tracking, and seamless EHR integration for your practice.

• No Credit Card Required • Works on iPad, Android & Web
